RCS Fine Art is pleased to present *THE SUN EXHIBIT: Light-inspired Photos & Paintings*.

Now on view in the Lobby Gallery at 1251 Avenue of the Americas, *The Sun Exhibit* features the work of painters and photographers inspired by light as their subject or medium. Through July 26, 2019 the exhibit of six artworks is eye-catching as installed in the busy public lobby space and a revelation of lights' many changing forms. Each artwork is accompanied by a brief label identifying the artist and describing the work on-view. 1251's Lobby Gallery presents four curated exhibitions each year to connect visitors with real objects of innovation and beauty in an increasingly digital environment.

This exhibition is presented in partnership with Mitsui Fudosan America, Hines, and RCSFA an art consulting firm that provides exhibition and art advisory services to corporations, museums and historic collections. The gallery at 1251 AoA is in the lobby of 1251 Avenue of the Americas, 49th & 6th Avenue. The gallery is open to the public M-F: 7 a.m.-7 p.m.
